

FlexoCloth 38H Double Sided Cloth Stereo Mounting Tape - 15 thou

C38H consists of a double sided cloth tape with a brown creped silicon paper liner. The white adhesive made of natural rubber, has been specifically developed for the application of rubber and photopolymer printing plates on to a printing cylinder in the flexographic industry.

- C38H is highly resistant to high manufacturing speeds and at the same time can be easily removed after use. The creped silicon paper liner has been manufactured to prevent the formation of air bubbles during plate mounting.

Product	Size (Width and Length)	Carton Qty	Trade price / per roll (£ sterling)
C38H	330mm x 25m	3	58.90
