

FlexoCloth 38L Double Sided Cloth Stereo Mounting Tape - 15 thou

C38L consists of a white fabric carrier with a differential rubber adhesive system on a brown paper release liner.

- C38L has been formulated to achieve maximum performance - an adhesive which firmly holds the stereo to the cylinder through the most demanding print runs without plate lift, an adhesive which can be taken cleanly off the cylinder after printing, a high quality print expected in today's flexographic printing industry.

Product	Size (Width and Length)	Carton Qty	Trade price / per roll (£ sterling)
C38L	310mm x 25m	2	49.10
C38L	460mm x 25m	2	72.84
