

FlexoSoft 38 Double Sided PVC Stereo Mounting Tape - 15 thou

This soft white PVC tapes consists of a rubber adhesive system which has been specially formulated to produce very high quality print for solid and line work.

- S38's PVC carrier and the rubber adhesive system has been modified to produce an even, consistent calliper with a firm adhesion to both the cylinder and the printing plates for high speeds and extended print runs.
- S38 can be removed easily after printing.
