

Flexo 10S Double Sided PVC Stereo Mounting Tape - 4 thou

F10S is a double sided adhesive tape in rigid transparent PVC with a brown paper liner and a synthetic rubber high tack adhesive.

- F10S is used in the Flexographic printing industry for mounting printing plates.
- F10S has a high shear resistance ensuring that there are no plate movements or edge lift problems, even at high speed and on extended print runs. F10S can be removed cleanly from the cylinders after printing.
- F10S, with its consistent calliper and excellent adhesion values ensures a high quality print run.

Product	Size (Width and Length)	Carton Qty	Trade price / per roll (£ sterling)
