

FlexoCloth 25 Double Sided Cloth Stereo Mounting Tape - 10 thou

This double sided cloth tape consists of an aggressive rubber adhesive with a brown paper release liner.

- C25 is used in the flexographic printing industry for mounting stereos onto polyester sheeting. It has very high adhesion values which enable the stereos to be mounted securely and without plate lift.
- C25 is also used in the construction industry for fixing carpets and other general purpose applications where an aggressive adhesive is needed.

Product	Size (Width and Length)	Carton Qty	Trade price / per roll (£ sterling)
